

Ancestors Claimed by Members of the Huguenot Society of South Carolina since 1885

The Huguenot Society of South Carolina accepts as members all descendants of French Protestants (Huguenots) who left France or another country) prior to 1787.

The following list gives the names of people claimed as Huguenot ancestors by members of this Society since it began in 1885. This list is very much a “work in progress” and does not represent all Huguenot ancestors. In addition, some names on the list are now known not to have been Huguenot. No new applicants will be admitted using those ancestors until the name is documented as Huguenot. Research is still being done on other names and spelling is being verified. Names will be corrected or added as new information is found. Please notify the Society if you have questions or corrections for the list.

Copies of documentation in the files of the Society can be requested by completing the Research Request form which is on this website. The Society welcomes copies of documented sources which will help verify information and provide a more accurate list of the names of Huguenot ancestors.

Applicants for membership in the Huguenot Society of South Carolina are reminded that the appearance of an ancestor’s name on this list does not guarantee membership in the Society. Documentation for the lineage of all new members is required. Application forms and information are available on this website.

NOTE: Names which appear in bold on the list are those currently used by members of the Society. Names marked with + are those for whom documentation is available for some descendants of that ancestor. Names followed by * are being researched to determine if they qualify as Huguenot ancestors. Women claimed as an ancestor are listed under their maiden names with their married names in parentheses.
